## 2 If you need care.

### Find a network provider.

#### How to find one.

Log in to [myuhc.com](https://myuhc.com) to find a doctor, clinic, hospital or lab based on location, specialty condition, reputation, estimated cost of services, availability, hours of operation and more. You can even see patient ratings and compare quality and costs before you choose services.

#### Take advantage of network care.

Network doctors, mental health professionals, hospitals, clinics and laboratories charge discounted rates, which typically saves you money. Even if your plan allows you to receive care outside of your network, be aware that it could cost you more.

#### Choose with confidence.

The **UnitedHealth Premium® Program** uses national, evidence-based, standardized measures to evaluate physicians in various specialties to help you locate quality and cost-efficient providers. Find UnitedHealth Premium Care Physicians by going to [myuhc.com](https://myuhc.com) and clicking on “Find a Doctor.” Choose smart. **Look for blue hearts.** ♥♥

#### If you need hospital care.

Talk to your doctor first to determine which hospital in your network can meet your medical or surgical needs. You or your doctor may be required to notify UnitedHealthcare before you're admitted.

#### Choose a primary care provider (PCP).

Although your plan may not require you to choose a PCP, it's a good idea to have one main doctor with in-depth knowledge of your health. Find one at [myuhc.com](https://myuhc.com) or call the toll-free member number on your ID card.

#### Schedule your preventive care screenings.

Most UnitedHealthcare plans pay 100 percent of the cost of certain preventive care services with a network provider. Check your health plan documents for details.

Visit [uhcpreventivecare.com](https://uhcpreventivecare.com) to find age- and gender-appropriate preventive care recommendations for everyone covered under your plan.

## If you need care.

# Know where to go.

## See your primary care provider whenever possible.

Your primary care provider usually has easy access to your records, knows the bigger picture of your health, and many offer same-day appointments to meet your needs. When seeing your provider is not possible, however, it's important to know your quick care options to find the place that's right for you and help avoid financial surprises.

### Freestanding ERs

Many people have been surprised by their bill after visiting a freestanding emergency room (FSER). FSERs, sometimes referred to as urgency centers, can be 2x the cost of an ER and 20x the cost of an Urgent Care Center. Neither located in nor attached to a hospital, FSERs are able to treat similar conditions as an ER but do not have an ER's ability to admit patients.

### Ask before you enter:

1. Is this an Urgent Care Center or ER?
2. Is this facility a network provider?

(Estimated \$1,500.00 difference between the average emergency room visit and the average urgent care visit.) The information and estimates provided are for general informational and illustrative purposes only and is not intended to be nor should be construed as medical advice or a substitute for your doctor's care. You should consult with an appropriate health care professional to determine what may be right for you. In an emergency, call 911 or go to the nearest emergency room.

\*\* Access to Virtual Visits may not be available in all states or for all groups.

## If you need care.

### Finding care when you are traveling.

Call the member phone number on your ID card or use the **Health4Me** app to find providers near you and to learn about your coverage when you travel.

### Estimate costs.

#### Know your potential costs before getting care.

You can find and estimate the price of care you need for an upcoming treatment or procedure on [myuhc.com](https://myuhc.com). Your cost estimate shows out-of-pocket expenses based on your plan and current benefit status. Members who comparison shop may save up to 36 percent\* for care near them.

## If you need care.

### Lower your pharmacy costs.

When you switch to a new plan, coverage for prescriptions you're already taking may change.

#### Check your Prescription Drug List (PDL).

The PDL is a list of medications covered by your plan. The list includes both brand-name and generic prescription medications approved by the Food and Drug Administration (FDA). Medications are listed by common categories or classes and placed in tiers that represent the cost you pay out-of-pocket. This makes it easier for you and your doctor to find other options to help you save money.

#### Know your plan.

Some medications have additional coverage requirements or limits depending on your benefit. Examples may include:

- **Prior authorization** – plan approval to get coverage for a medication.
- **Step therapy** – trying one medication before another.
- **Supply limits** – getting only a certain amount of each prescription.

Your plan may use these requirements to help manage costs or make sure the medication you are taking is clinically appropriate for your condition. See your PDL to find out if your medication has any of these. Then, call the number on your ID card to begin the process.

#### Compare prices.

Generic medications may have a lower copay than brand-name medications. Ask your doctor if a generic or lower tier option is right for you.

#### Talk to your doctor.

When you talk to your doctor, use the **Health4Me** app to confirm coverage and costs. You can also discuss what you need to do to get your medication.

#### Questions? We can help.

- Log in to [myuhc.com](https://myuhc.com).
- Use the **Health4Me** app.
- Call the number on your ID card.

# 3 After you receive care.

## Know how claims are processed.

### When you see a network doctor.

Claims are submitted for you and you may be asked to pay some or all of the bill before you leave. UnitedHealthcare will process the claim to:

- Make sure it's an eligible expense under your plan.
- Make sure the service is paid at the discounted network rate.

### When you see an out-of-network doctor.

If your plan allows visits to out-of-network providers, you may be asked to pay some or all of the bill before you leave.

- If the doctor doesn't submit your claim, you may be responsible for submitting the claim.
- Find medical claim forms and instructions on [myuhc.com](https://myuhc.com).
- Remember, discounted rates don't apply to out-of-network doctors so you may pay more.

#### Track your claims online.

Follow your claims from start to finish, and track payments you've made to health care providers in one place. You can also pay your bills online at [myuhc.com](https://myuhc.com).

#### Problem with a claim?

Information about the appeals and grievances process can be found in the "Claims & Accounts" tab on [myuhc.com](https://myuhc.com). You can also call the toll-free member number on your ID card, TTY **711**.

**Dry Winter Skin**

Winter weather sends many people running inside for warmer temperatures. While warm air may feel good, it may also cause dry skin, chapped lips and nose bleeds. To avoid such problems, follow these tips: drink lots of fluids, shower with warm water instead of hot, moisturize often and use lip balm and nasal spray. A humidifier can also help by adding moisture to the air in your home. If you've tried these tips and symptoms continue or worsen, contact your doctor.

Access to Virtual Visits and prescription services may not be available in all states or for all groups. Go to [myuhc.com](http://myuhc.com) for more information about availability of Virtual Visits and prescription services. Always refer to your plan documents for your specific coverage. Virtual Visits are not an insurance product, health care provider or a health plan. Virtual Visits are an Internet-based service provided by contracted UnitedHealthcare providers that allow members to select and interact with independent physicians and other health care providers. It is the member's responsibility to select health care professionals. Care decisions are between the consumer and physician. Virtual Visits are not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times or in all locations. Members have cost share responsibility and all claims are adjudicated according to the terms of the member's benefit plan. Payment for Virtual Visit services does not cover pharmacy charges; members must pay for prescriptions (if any) separately. No controlled substances may be prescribed. Other prescriptions may be available where clinically appropriate and permitted by law, and can be transmitted to the pharmacy of the member's choice.

Preventive care: Certain preventive care services are provided as specified by the Patient Protection and Affordable Care Act (PPACA), based on your age, gender and other health factors, with no cost-sharing. The preventive care services covered are those preventive services specified in PPACA. UnitedHealthcare also covers other routine services, which may require a copayment, coinsurance or deductible. Always refer to your plan documents for your specific coverage.

Disease Management programs and services may vary on a location-by-location basis and are subject to change with written notice. UnitedHealthcare does not guarantee availability of programs in all service areas and provider participation may vary. Certain items may be excluded from coverage and other requirements or restrictions may apply. If you select a new provider or are assigned to a provider who does not participate in the Disease Management program, your participation in the program will be terminated. Self-Funded or Self-Insured Plans (ASO) covered persons may have an additional premium cost. Please check with your employer.

Evaluation of New Technologies: UnitedHealthcare's Medical Technology Assessment Committee reviews clinical evidence that impacts the determination of whether new technology and health services will be covered. The Medical Technology Assessment Committee is composed of Medical Directors with diverse specialties and subspecialties from throughout UnitedHealthcare and its affiliated companies, guest subject matter experts when required, and staff from various relevant areas within UnitedHealthcare. The Committee meets monthly to review published clinical evidence, information from government regulatory agencies and nationally accepted clinical position statements for new and existing medical technologies and treatments, to assist UnitedHealthcare in making informed coverage decisions.

The medical centers and programs in UnitedHealthcare's network and within OptumHealth<sup>SM</sup> Care Solutions are independent contractors who render care and treatment to UnitedHealthcare members.
